EU Type Examination Certificate

Date: 2019/05/24

n. **289192101/OE**

Validity:
2024/05/23

Protective functions: to reduce the severity of injuries caused by impacts.
The protectors give a limited protection against mechanical impact in case of accidents.

Typical test results obtained (see also test report): Method: planar face drop striker at 50 J;
standard ambient and wet (= after hydrolytic treatment) conditioning;
performance level achieved: 1

Overall protective level: 1

NOTE: The Standard provides 2 performance levels with level 2 meaning the higher performance. The protective functions depend on the correct positioning of the protector, which falls within the responsibility of the user.

Marking: printed on the protector and displaying the following information:

- **CE Marking;**
- name and address of the Manufacturer;
- item designation;
- indication of the reference Standard;
- pictogram referring to the intended use (motorcycling) with indication of the protector type and size as well as of the overall protective level achieved;
- additional info: indication of the correct positioning ("TOP"), date of manufacture.

Yellow inner side:

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements. The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
